The UN Treaty to Prohibit Nuclear Weapons opens for signature and ratification from 20th September 2017 ASK YOUR MP TO SUPPORT IT

The UN's ground-breaking Treaty to Prohibit Nuclear Weapons (TPNW) makes nuclear weapons clearly illegal and provides a framework for their total elimination. It creates two legal pathways for a nuclear-armed country like Britain to join the treaty and get rid of Trident.

WILPF is a long-standing partner in the International Campaign to Abolish Nuclear Weapons (ICAN). We advocated successfully for the TPNW to recognise the specially appalling nuclear impacts on women and girls, and to ban threats to use nuclear weapons along with core prohibitions on activities like the use, development, testing, manufacture, stationing and deployment of these WMD.

Engage your MPs to sign this pledge to work for the UK to sign this important Treaty and bring it into full legal effect.

“We, the undersigned parliamentarians,

warmly welcome the adoption of the UN Treaty on the Prohibition of Nuclear Weapons on 7 July 2017 as a significant step towards the realization of a nuclear-weapon-free world.

We share the deep concern expressed in the preamble about the catastrophic humanitarian consequences that would result from any use of nuclear weapons and we recognize the consequent need to eliminate these inhumane and abhorrent weapons.

As parliamentarians, we pledge to work for the signature and ratification of this landmark treaty by our respective countries, as we consider the abolition of nuclear weapons to be a global public good of the highest order and an essential step to promote the security and well-being of all peoples.”
